- Streamlined code quality and performance by implementing best practices, eliminating 30% of bugs and amplifying team productivity by 15%.

Crownstack technologies pvt ltd.

ReactJs Developer

Oct 2021 - Jan 2023

- Crafted responsive UIs using Next.js and Tailwind CSS, boosting mobile traffic by 30% and reducing bounce rates by 20%.
- Optimized application performance by implementing code splitting and lazy loading, cutting load times by 50% and increasing user retention by 15%.
- Spearheaded end-to-end testing, reducing production bugs by 40% and improving deployment success rates by 25%, delivering bug-free products.

PROJECTS

Modern Portfolio Animated Website:

- Technologies: Next.js, Accentricity UI, Tailwind CSS
- Description: Designed and developed a modern, animated portfolio website to showcase projects and skills. Leveraged Next.js for optimized performance and server-side rendering, Accentricity UI for a polished design, and Tailwind CSS for responsive, custom styling. Features include smooth animations and a responsive layout for an engaging user experience.

Responsive Pokédex

- Technologies: React, SCSS, Redux Toolkit, Redux Thunk, Firebase Authentication
- Description: Built a dynamic and responsive Pokédex application with comprehensive Pokémon data management. Implemented React for interactive UI, SCSS for modular styling, and Redux Toolkit with Redux Thunk for efficient state management and API handling. Integrated Firebase Authentication for secure Google login, and included features like Pokémon search, comparison, and favorites.
